We believe in the promise of the Sun

SOLARCITI all are happy, with solar

WHO WE ARE

SOLARCITI is a leading independent company specializing in rooftop solar electricity generation. We work with private homeowners, commercial premises, community organizations and public bodies in order to design and implement bespoke solutions to meet specific needs in each of these sectors.

We are more than just a leading solar company, we are an in - house team of solar energy experts and innovators dedicated to improving the way you create power. The company's employees are fully trained professionals to survey, design and install the best quality solar PV products from major manufacturers approved by MNRE, all of which include a 25 year performance warranty.

At SOLARCITI, we believe in a better way to power homes and businesses at a lower cost while contributing to a cleaner planet. We make it easy. Your experience is our top priority, starting the moment you contact us. Our team will take care of everything. Once scheduled, your solar power system installation can take as little as one day. SOLARCITI has accumulated a wealth of knowledge.

Here is a product that fulfils the aspirations for potential customers to actually contribute something positive to making the world a better place to live in, both now and for the future by reducing carbon output.

High energy costs, increasing legislation, government incentives and growing corporate social responsibility are all huge drivers for the increasing demand in solar energy.

For your guidance, this prospectus will offer you a guide through the initial steps and explain how being a part of the SOLARCITI brand will work for you.

WHAT WE DO

We make going solar easy. Every step of the way from the second we knock on your door to the time your panelsstart producing power we deliver the tools, support and advice your need to make SOLAR simple.

Consultation:

We'll take a look at your energy needs, and tell you how much you can save by going solar. We'll also answer any of your questions. Simple, painless, and free.

Design:

We'll stop by for a second visit to check out your roof, and gather information for our solar design team. Our team will create a customized system, for you, designed to shrink your energy bill.

Permission & Paper work:

Our Liaison manager will make sure that all of the permits and paperwork NREDCAP and local utility company and paper work required are taken care of. All you need to do is sit back, relax, and wait for installation day.

Installation:

On installation day you can expect us to have your solar panels up and ready in about a day or two. Once we're finished, we'll show you how to turn the system on and off.

Activation:

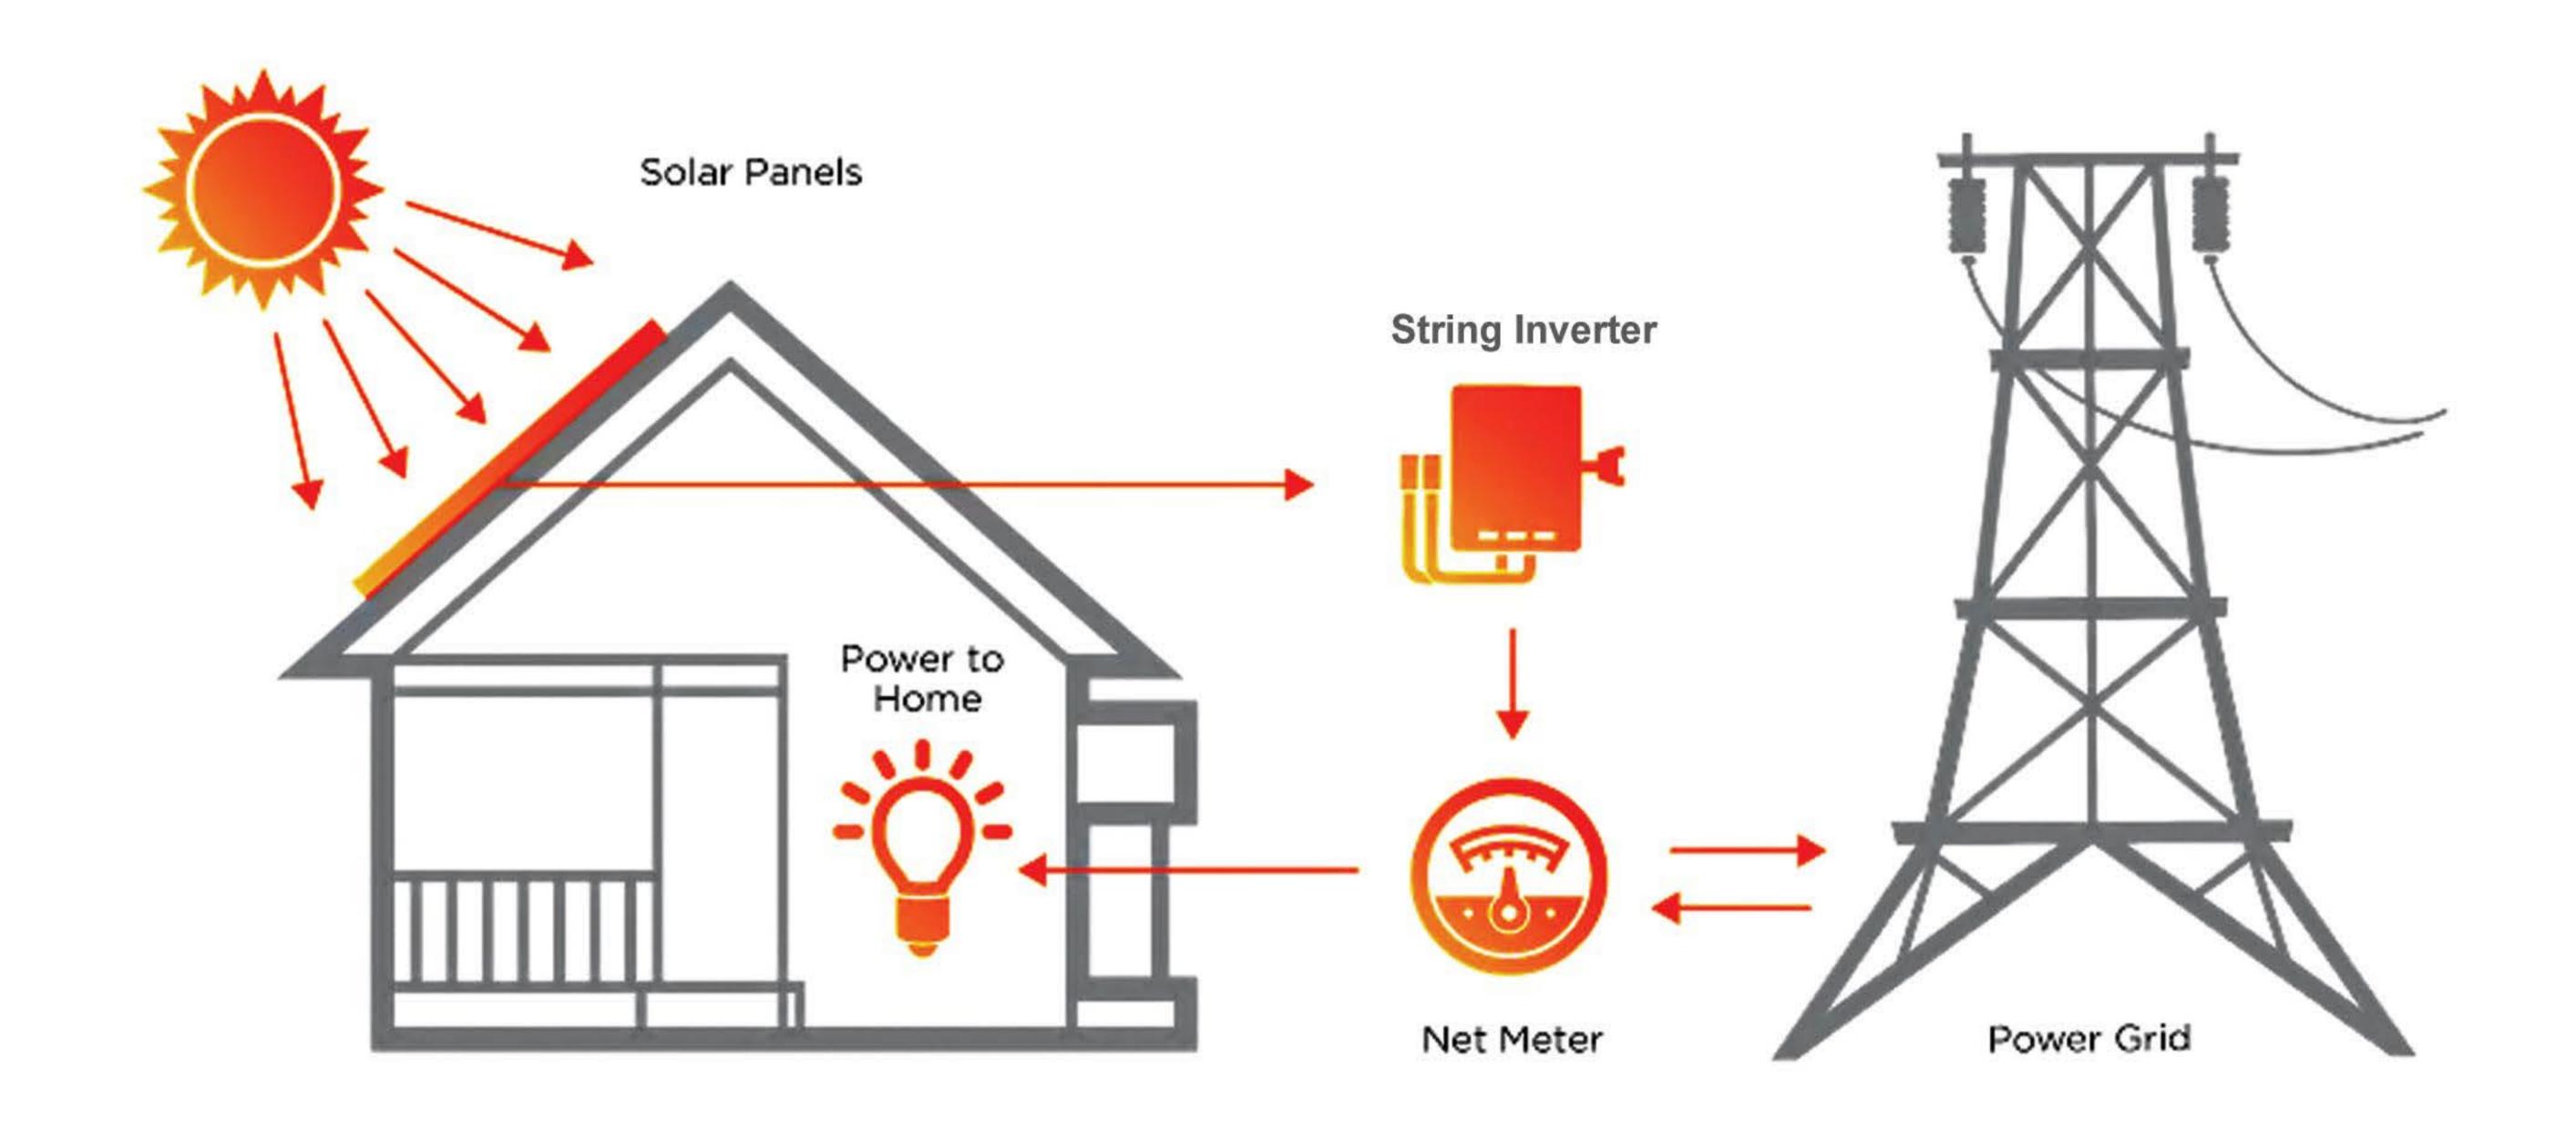

Your local SPDCL and NREDCAP will need to give final permission for us to connect your panels to the grid and start generating clean energy. This is called Permission to Operate, Once it is granted, your panels are ready to be turned on, and you can start saving.

Our approach:

A better customer experience that means multi point quality inspections on our solar panels, and step support. It means we don't leave out the installations to chance, and we don't cut corners. Most importantly, it means you'll never be left in the dark.

ROOFTOP SOLAR POWER NET METERING

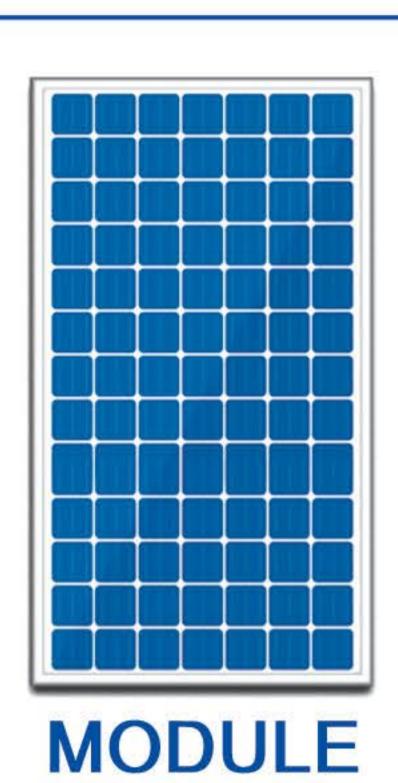

BENEFITS OF SOLAR NET METERING

- Utilization of vacant Roof top for power generation.
- Can generate power for itself consumption and feed excess Power to the grid
- Provision for settlement of registered surplus energy fed to the grid on monthly basis.
- Surplus energy injected shall be considered for payment by the DISCOM
- (APSPDCL) at cost to serveprice as decided by the APERC.
- Generation of Environmental friendly green energy.

SOLAR POWER COMPONENTS

High perfomance

Maximized energy harves

High reliable due to stringent quality control

over 300 in - house tests

Certified to withstand the most challenging environmental conditions

INVERTER

High efficiency

Max. Efficiency 98.3%

Reliable and safe
Stringent testing

Compact size

Easy installation

High protection IP65 enclosure

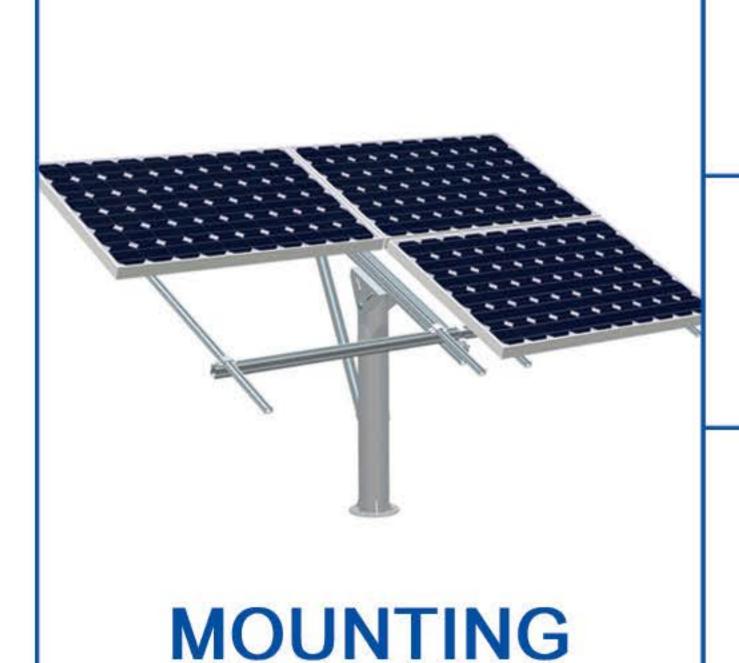

GRID-BOX

IP65 indoor and outdoor

dustproof waterproof

Reliable and safe

Reliable performance

optimized structure, high strength

Flexible installation

Additional components may be required for customization of roof tops

Save installation time

Provide complete set of mounting

OUR WORKMANSHIP

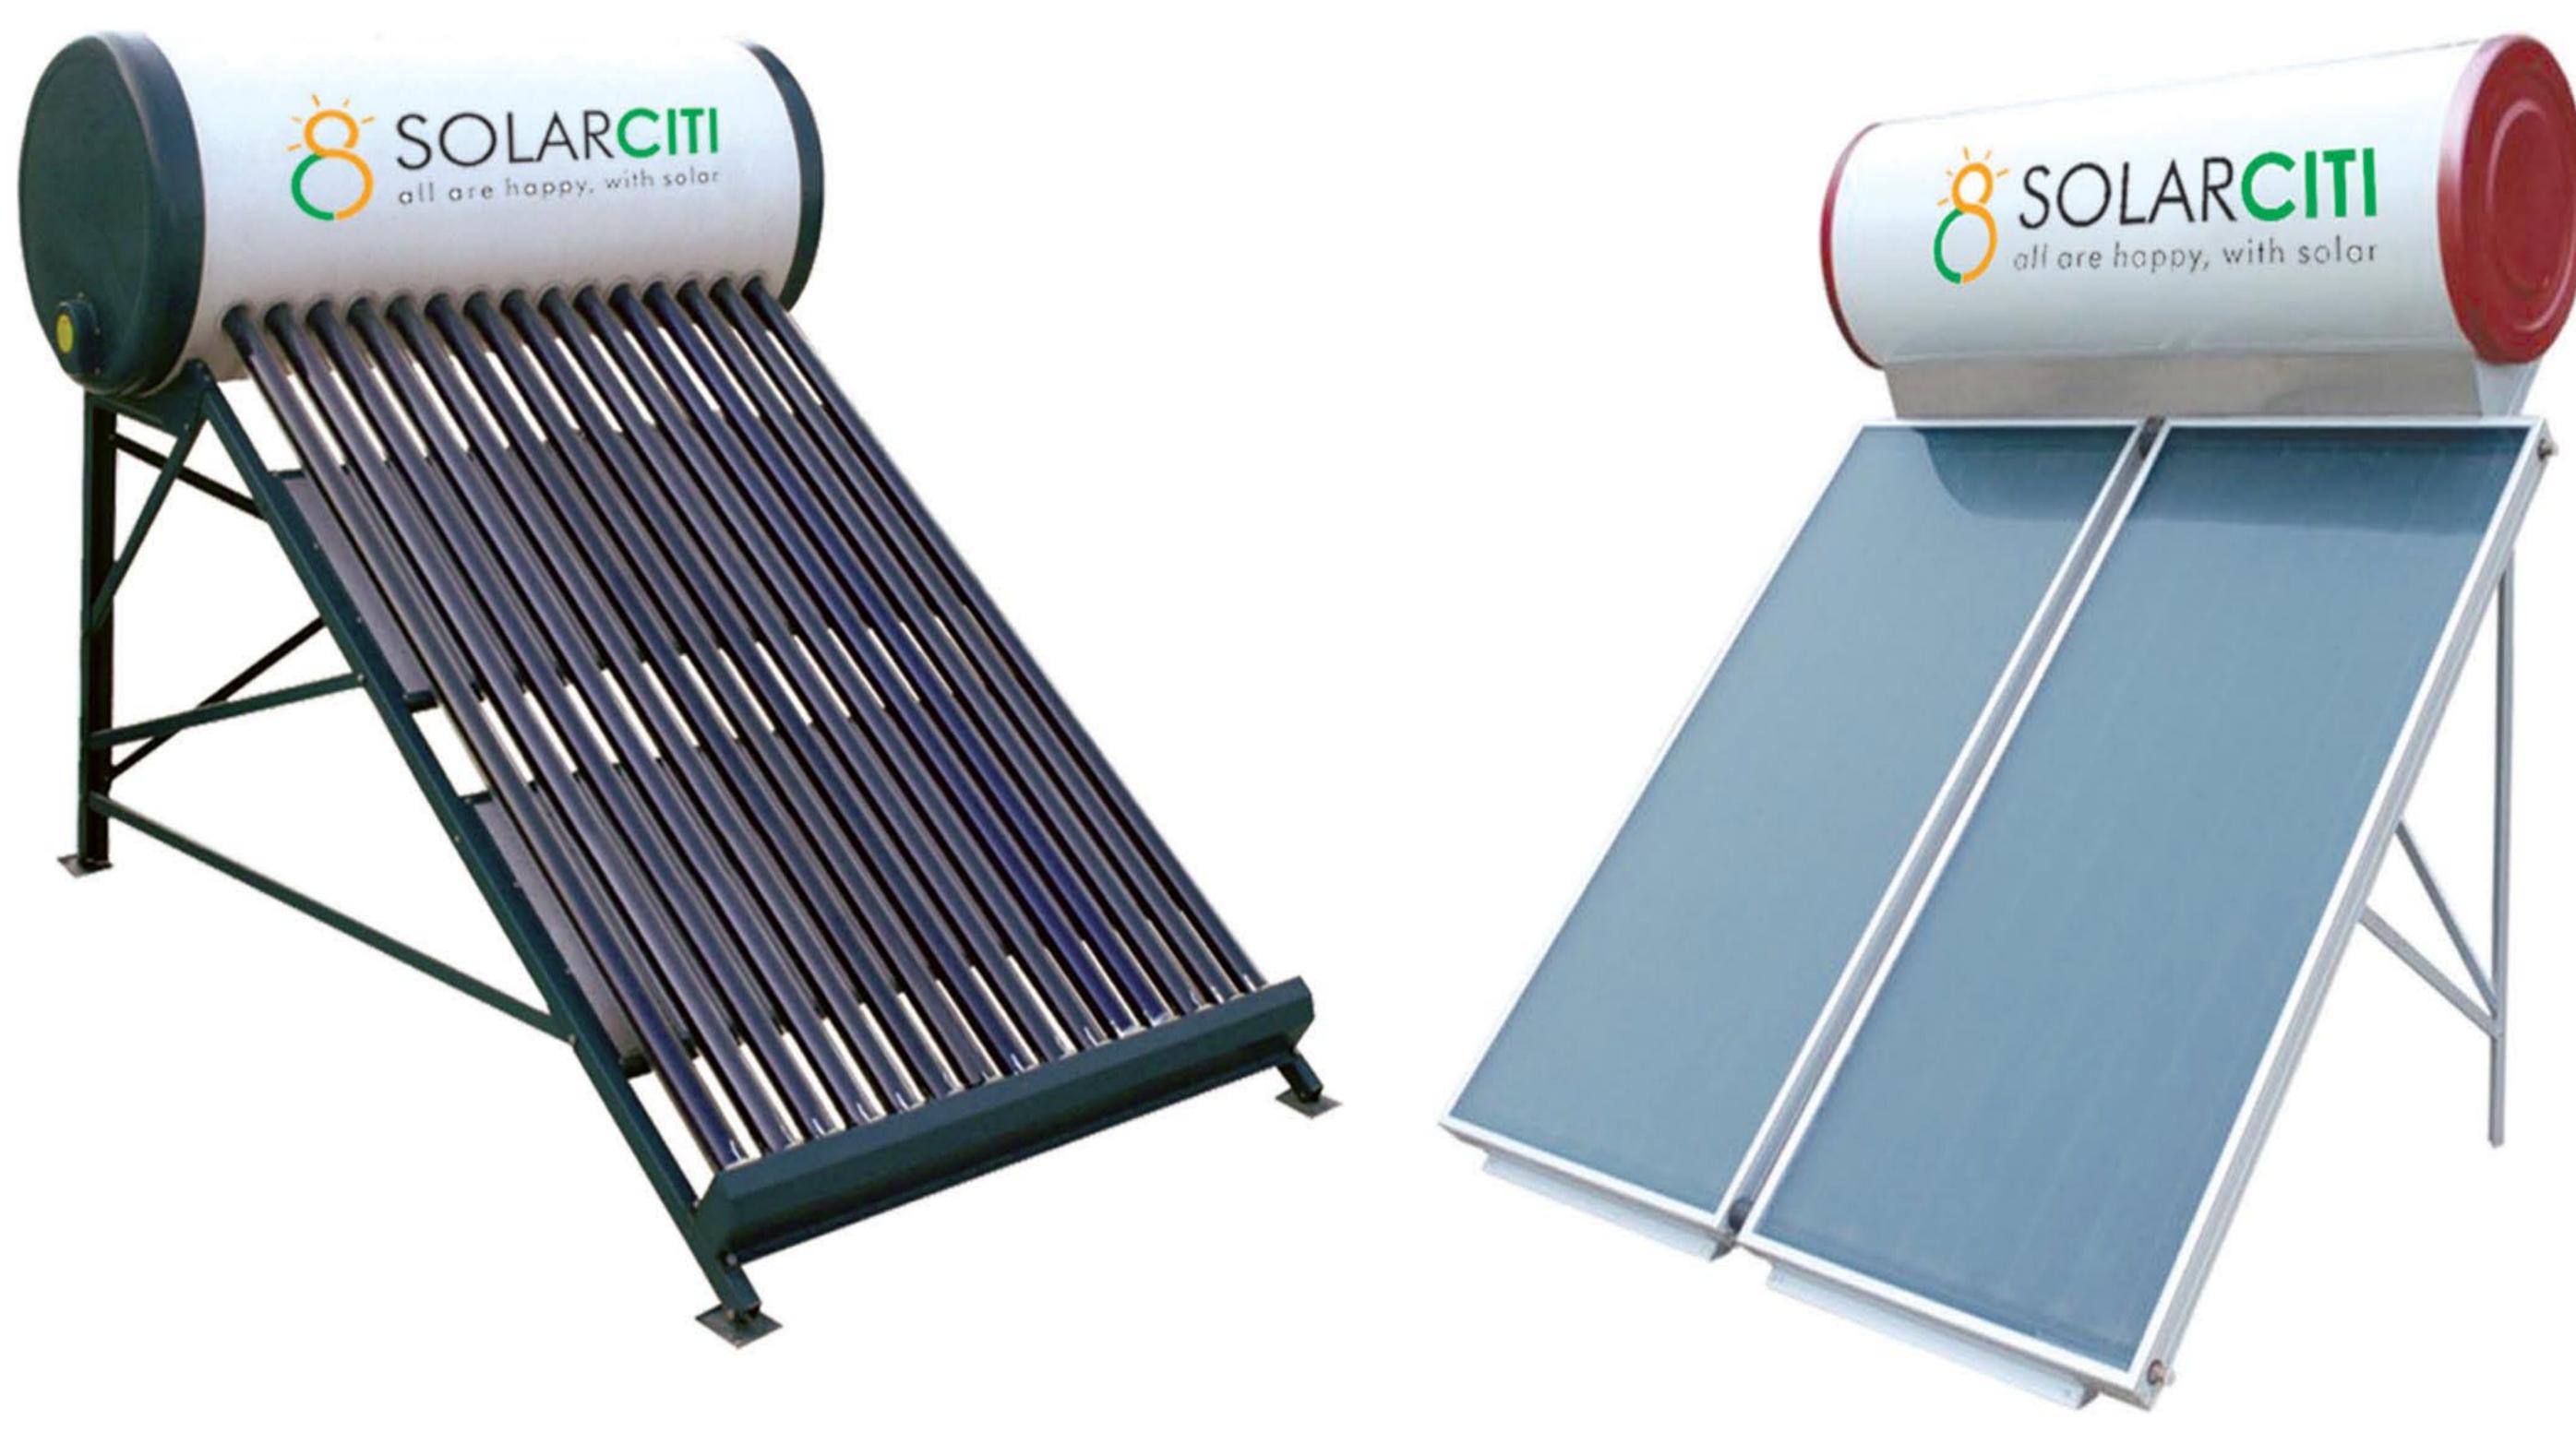

SOLAR WATER HEATERS

ETC Model

FPC Model

SPECIFICATIONS

- Delivers significant power savings
- Robust construction
- Stainless steel storage tanks available in various grades (ss 304 and ss 3161) depending on local water quality
- ☑ PUF insulated tank with < 5% heat loss per day
- Capacity available 100, 125, 160, 200, 300,500 and 1000 litres per day
- Higher configurations available for industrial / Commercial establishments

SOLAR STREET LIGHTS

- High efficiency electronic circuitry
- Very low self consumption
- > 5 to 6 meter pole with mounting frame
- Charge controller and Battery box
- Daily hours of operation 12 hours
- Autonomy 2 days
- 100% Short Circuit protection
- Perfect design, Easy Installation
- Temperature Compensated Battery charging
- "Fit and Forget" device
- Excellent for remote village
- Low maintenance
- One time installation
- High reliability and durability

SOLAR FENCING

- Solar fencing system is a modern day alternative to Conventional methods of fencing to protect corporate property.
- ▶ The Security Fence System produces a high voltage in the range of 6.0 KV to 9.9 KV to deter, detect and deny physical instruction by giving the intruder a short, sharp and painful shock.
- Thefts caused by animals, people in the corporate sectors etc.
- We design and manufacture these solar fencing based on latest technologies and as per the corporate need.

SRI SAI
Public School

CERTIFICATIONS

We are the leaders in rooftop solar power projects in Andhra Pradesh with

Installations to our credit

We are moving forward to reach bigger numbers in the coming months and years.

WE BELIEVE

WE believe in the promise of the sun. it is the most abundant, most liberating energy source of all

WE believe the sun belongs to everyone.

WE're committed to unlocking its vast energy, so all of us can enjoy the freedom it provides.

WE believe that quality matters.

WE've created the very best solar solutions and set a few records along the way.
